The National Playgroup Alliance

Playgroup Australia is the national peak body for playgroups, and we are launching the National Playgroup Alliance. This initiative will enable us to expand our membership and align more broadly with organisations that provide positive outcomes for children, families, and communities in the very early years through playgroups.

We invite organisations that deliver, support, or use playgroups, to join us as part of the National Playgroup Alliance.

Our Vision

Every child & family is positively impacted by participation in Playgroup.

Our Mission

Playgroup Australia is the National peak body, championing the important role of the Playgroup Movement in delivering positive social impact by supporting young children, families and communities.

Why Join?

Every week, thousands of children and their families attend playgroups. They are a critical program in the early years system yet their valuable contribution remains under recognised. The National Playgroup Alliance aims to change this paradigm. It seeks to coordinate national leadership, enable collaboration, strengthen the evidence base, and increase investment in playgroups.

Member Categories

- Voting Membership- For state and territory playgroup associations
- Affiliate Membership – for not-for-profit organisations who deliver playgroups and/or work with children and families in the very early years
- Research Membership – for universities and research institutions

Membership Benefits

1. Collective Voice

Shape national research and policy agendas. Members contribute to Playgroup Australia's national advocacy and research priorities through consultations and advisory groups.

2. Impact and Profile

Amplify your work through joint campaigns such as National Playgroup Week, and co-branded materials that raise awareness of playgroup benefits in the early years.

3. Connection and Networking

Build relationships with like-minded organisations through webinars, roundtables and national events.

4. Collaboration and Growth

Opportunities to collaborate with Playgroup Australia on initiatives that enhance service delivery, including participation in projects supported through national partnerships.
